Statement III

SYNOPSIS OF TERMS AND CONDITIONS FOR ISP OPERATIONS

(1) The Licensee shall be solely responsible for installation, networking and operation of necessary equipment and systems, treatment of subscribers complaints, issue of bills to its subscribers, collection of the revenue, attending to claims and damages arising out of the services provided by him.

(2) The Licensee shall be free to fix his own tariff to be charged from subscribers. The tariff shall be left open to be decided by market forces. However, the TRAI (Telecom Regulatory Authority of India) may review and fix a tariff at any time during the validity of the licence which shall be binding on the Licensee.

(3) The licence is issued on non-exclusive basis *i.e.* other vendors may be granted licence for the same service in the same area at the discretion of the Licensor. DOT itself or through a designated Public Authority, has the right to operate the serivce in any/all service areas.

(4) Individuals or groups of organisations both in private and Government sectors are permitted to deploy, indigenus of imported, encryption and equipments for providing secrecy in transmission up to a level of encryption to be specified by Telecom Authority. However, if encryption equipments of level higher than specified are to be deployed, individuals/groups/organisations shall obtain Government clearance and shall deposit one set of keys with the Telecom Authority.

(5) The Licensee will have to abide by the security consideration which has been spelt out in detail in the Licence Agreement.

(6) Telephony on the Internet: Telephony on the Internet is not permitted. The licence will be liable for termination for any violation of this clause of the Licence Agreement. The licensee shall also take measures on his own and as and when directed by the Government at his own cost to bar carriage of Telephone trafficf over Internet.

(7) The Licensee shall be governed by the provisions of the Indian Telegraph Act, 1885, Indian Wireless Telegraphy Act, 1933 & Telecom Regulatory Authority Act, 1997.

(8) The acceptance testing of any interface equipment^Connected to the DOT network will be carried out by the DOT.

(9) ISP may provide Internet service to any VSAT subscriber within the service area.

(10) Access to Internet through authorized cable operator permitted.

(11) Last mile linkages freely permitted within local area either by Fibre Optic or Radio Communication. Detailed terms and conditions governing the operations are part of Licence Agreement.

Modernisation of Postal and telecom services in NER

531. SHRI PARAG CHALIHA: Will the PRIME MINISTER be pleased to state the details of steps contemplated to expand and modernise postal and telephone services in the North-East Region?

THE MINISTER OF STATE IN THE MINISTRY OF COMMUNICATIONS (SHRI KABINDRA PURKAYASTHA): *Postal*

(a) During the Annual Plan 1998-99, a target for opening 106 Extra Departmental Branch Post Offices, 6 Departmental Sub Post Offices has been fixed for the North East Region including Sikkim subject to availability of resources.

(b) During this Annual Plan, development programmes have also been chalked out for modernisation of Post Offices in the North East Region and Sikkim comprising the North East and Assam Postal Circles and the Sikkim State of West Bengal Postal Circle. Out of the following targets for all India implementation, 10% has been earmarked for the region:—

(i)	PC-based multi-purpose Counter Machines	500
(ii)	Installation of Savings Bank local area networks,	100
(iii)	Installation of Stamp cancellation machines,	20
(iv)	Supply of Electronic Franking Machines, (v) Hand Stamps Cancellors	150 10000

Besides 10% of the above targets being allocated to the North East Region and Sikkim, there is also a proposal to install one VSAT Station at Ita Nagar for Satellite Money Transfers.
